Issued: January 26, 2018

Brazil has opened an electronic visa program (e-Visa) program for U.S. Passport holders. Eligible travellers are able to complete their application online for e-Visas by visiting: http://vfsglobal.com/brazil-evisa/.

The Brazil e-Visa, at present, is available for nationals of Australia, Canada, Japan and now the United States.

Application and approval process:

- Apply at: http://vfsglobal.com/brazil-evisa/.

- Once approved (approval process will take anywhere from 3-5 business days, per the Brazilian government), the e-Visa approval will be emailed to the applicant.

- If not approved, the applicant will need to visit a Brazilian consulate office.

- Each traveller must have their own e-Visa, print their e-Visa approval receipt and carry it when traveling – as they will be required to present it to American Airlines, and on arrival to Brazilian Border Police. The e-Visa must match the passport being used by the traveller.

- As this is not an Electronic Travel Authority (ETA), it is not possible to obtain an e-Visa immediately – and there is no visa upon arrival available.

- Emergency visas are not available.

AFTER SUBMISSION

Welcome to the eVisa (Electronic Visa) website for Nationals of Australia, Japan Canada and USA. VFS Global is the exclusive service provider for the Government of Brazil, the only company authorized to offer administrative support services to Electronic Visa Applicants for Australian, Japanese Canadian and US Nationals who wish to apply for a Brazilian Visitor's Visa.

- **Please Note:** This facility is only available for nationals/passport holders of Australia, Japan, US and Canada and not to the residents of these countries.
- VFS Global provides an eVisa application platform, Mobile Application, a contact center, as well as administrative support services, for the Brazilian Ministry of Foreign Affairs. Nationals of Australia, Japan Canada and USA visiting Brazil can complete the entire application process online.
- **Important Notice:** The Electronic Visa of the Federative Republic of Brazil, is a new Visa application done over the internet, which Australian, Japanese, Canadian and US nationals may request for entry into Brazilian territory
- The eVisa is valid for only for 02 years and the length of stay for the visitor's visa will be 90 days per year.
