

Whistler Mountaineer | One Way or Round Trip | from £58

The highly anticipated Whistler Mountaineer will link the two world-class destinations of Vancouver and Whistler in British Columbia from April to October. Following the magnificent west coast "sea to sky" scenery - brilliant Pacific waters, pristine forests, and snow-capped mountains - the Whistler Mountaineer offers a unique perspective only available from a train. Not only will you be in awe of the breathtaking views, you will also be pampered onboard with two types of superior experiences, comfortable seating and sparkling interpretive commentary.

A classic rail experience with high quality service and picture windows offering spectacular views.

- One-way excursion on the Whistler Mountaineer with assigned seating
- Scenic views through large picture windows
- Breakfast or light meal service served onboard at your seat
- Access to the open-air observation car
- Service and interpretive commentary onboard by knowledgeable and friendly Onboard Attendants
- Complimentary non-alcoholic beverages

Canadian hospitality and fascinating commentary onboard a full-length single level dome car, offering 360° views

- Scenic views through large picture windows
- Breakfast or afternoon tea served onboard at your seat
- Access to the open-air observation car
- Service and interpretive commentary onboard by knowledgeable and friendly Onboard Attendants
- Complimentary non-alcoholic beverages

Vancouver - Whistler (v.v.)

Depart from North Vancouver Rail Station pass under the Lions Gate Bridge and enjoy the early morning views of downtown Vancouver and Stanley Park as the train hugs the scenic waterfront of West Vancouver's exclusive residential area.

After passing through the Horseshoe Bay Tunnel, travel along the eastern shores of Howe Sound with the British Columbia Coastal Mountains rising steeply to the right and stunning views of ocean and mountain to the left.

As you near the town of Squamish, BC, look out for the impressive cascade of Shannon Falls and the spectacular dome peak of Mount Garibaldi, rising 2,672 metres (8767 feet) above sea level.

Pass through the yards of the West Coast Rail Association, home of the Royal Hudson steam train, before climbing a steep grade through the Cheakamus Canyon, where the river below tumbles through a craggy gorge.

Cross over the pinnacle of Brandywine Falls before arriving at Whistler, a year-round resort renowned for skiing and outdoor activities, and the end of today's scenic rail tour.
